THE PEACE AND STABILITY IMPACT OF THE RUSSIAN AND AMERICAN FOREIGN POLICY ON THE MIDDLE EAST: THE SYRIAN CASE

Zafer AKBAŞ, Düzce University

The international arena is a chaotic structure that is the scene of the struggle for power and benefits. States are influencing regional or global stability with politics for peace or conflict as the strongest actor of international politics. In this context, the two most important actors of today's world are Russia and USA.

The conflict of interests between Russia and the US on the Middle East has a negative effect on regional stability. Both actors occasionally cooperate as a result of their interests. Reconciliation and cooperation between actors contributes to resolving conflicts and ensuring peace and stability. The establishment of territorial domination of DEAŞ terrorist organization in Syria, the attitude of Esat administration made the country easy to foreign intervention. The conflict of power and authority conflicts in Syria bring US and Russia opposite of each other and on the other hand the cooperation between the two actors makes it possible to solve the problems.

In this study it is argued that cooperation and reconciliation between the big powers may be the solution cause for the regional problems, otherwise the conflict is inevitable. In addition, As a result regional facts, global peace and stability have been achieved through reconciliation and co-operation, otherwise conflict and crisis will go on. In order to evaluate the implications and consequences of the assumed hypothesis, achieved by focusing on the interactions between actors on various actions and problems in Syria, Focused on what developments are taking place

RUS VE AMERİKAN DIŞ POLİTİKASININ ORTADOĞU'DA BARIŞ VE İSTİKRARA ETKİSİ: SURIYE ÖRNEĞİ

Uluslararası alan güç ve çıkar mücadelesine sahne olan kaotik bir yapıdır. Devletler uluslararası politikanın en güçlü aktörü olarak barış veya çatışmaya yönelik politikalarıyla bölgesel ya da küresel istikrarı etkilemektedir. Bu bağlamda günümüz dünyasının en önemli iki aktörü Rusya ve ABD'dir.

Rusya ve ABD'nin Ortadoğu'ya yönelik çıkar çatışması bölgesel istikrarı olumsuz etkilemektedir. Her iki aktör zaman zaman çıkarlarının gerektirmesi sonucunda işbirliğine de gitmektedir. Aktörler arası uzlaşma ve işbirliği çatışmaların çözülmesine ve barış ve istikrarın sağlanmasına katkı yapmaktadır. Suriye özelinde DEAŞ terör örgütünün alan hakimiyeti kurması, Esat Yönetiminin tutumu ülkeyi dış müdahaleye açık hale getirmiştir. Suriye'de güç ve otorite boşluğu ile çıkar çatışması, ABD ve Rusya'yı karşı karşıya getirirken, iki aktör arası işbirliğinin ise sorunların çözülmesine yaradığı değerlendirilmektedir.

Bu çalışmada büyük güçler arası işbirliği ve uzlaşmanın bölgesel sorunlara da çözüm nedeni olabileceği, aksi halde de çatışmanın kaçınılmaz olduğu savunulmaktadır. Ayrıca bölgesel olgudan hareketle küresel barış ve istikrarın uzlaşma ve işbirliğiyle mümkün olduğu aksi halde ise aynı düzlemde çatışma ve krizin yaşanacağı sonucuna ulaşılmıştır. Anılan varsayımın izahı ve sonuçların değerlendirilmesi için Suriye özelinde çeşitli eylem ve sorunlara dair aktörler arası tutumlara odaklanılarak gelişmelerin ne yönde gerçekleştiğine odaklanılmıştır.

Anahtar Kavramlar: Güç, Çıkar, Rusya, ABD, Suriye
